### ***Dilutions:***

Ready to use

### ***Directions:***

Tires

For the best results, pre-clean and dry tires before applying product. Spray product on application pad and apply to tire. Allow the product to dry thoroughly before moving the vehicle.

Exterior Rubber, Plastic or Vinyl:

Spray product on application pad. Apply pad to the surface. Wipe dry with clean towel.

*DO NOT apply to engines, brake or accelerator pedals, seat bottoms, steering wheel, glass or clear plastic.*

### ***Recommended Uses:***

Tire/rubber dressing
